Valerie,

I made three changes on Project Agreement 28 (marked using tracking tool). The units should be mmol/mL instead of pmol/mL and the range should be 5.0 - 500 instead of 5.0 - 5000. The 26 and 27 are fine.

How do we handle the addition of scientific discussion and references and the logic behind the feasibility/method development plan? A separate attachment to the work product or as an indepent document as Kirk proposed?

Best regards,
Shixia

Please review my modifications to these attachments and let me know ASAP if they are correct.

Thanks,
Valerie

To all concerned,

Please find attached the minutes to the conference call held this morning
to discuss the Project Agreements 26, 27, 29, and 35.

Best regards,

Kirk Newland
